## CLEAR-COM

### Clear-Com Encore™

Clear-Com Encore™ delivers improved audio performance and offers a more streamlined, contemporary and user-intuitive design. Components are constructed and proven to withstand rugged usage in fast-paced, demanding and high intensity applications. Even under the most challenging conditions, the noise attenuating headsets and noise-canceling microphones, combined with anti-sidetone circuitry, minimize acoustic noise and feedback to provide superior sound quality.

### INTERCOM STATIONS

**MS-702 Rack-Mount Main Station:** Compact, feature-laden, single rack-space intercom main station supports up to 40 RS-601 beltpacks, 10 speaker stations or 12 headset stations on two channels. Other features include: Channel A-B linking; program input with individual channel level controls; Remote Mic Kill switch, and external relay circuit. (Enhancement of MS-232). **\$1,383.35**

**CS-702 Portable Main Station:** The CS-702 is a portable main station with a power supply and a versatile intercom monitoring system. It supports up to 40 beltpacks or 7 speaker stations on 2 channels. CS-702 accepts mic or line-level audio program input, assignable to either or both channels, with interrupt switch to override program. (Enhancement of CS-222) **\$1,188.90**

### BELTPACKS

**RS-601:** Single channel with 3-pin female and male XLR, 4-pin male XLR headset connector and an RS-232 data connector. Allows use on a TW line (Audio on Channel B without loading down channel A). **\$322.20**

**RS-602:** Dual channel with 6-pin female and male XLR, 4-pin male XLR headset connector, 2.5 mm AUX headset connector and a RS-232 connector. Allows audio program connected through pins 5 and 6 of the intercom line connector to be looped through to other RS-602/622's in a daisy chain. A separate volume control sets program level. AC and DC Call signaling on both channels. **\$438.90**

### CELLCOM10®/FREESPEAK10®

Digital wireless intercom system that uniquely blends digital matrix technology with a locally distributed wireless "network". Operates license-free in 1.9 GHz frequency band. Does not interfere with other wireless products such as PC's talent mics, IFB or in-ear monitors. Adds broad connectivity to party-line and digital matrix intercom systems. Allows beltpack-to-beltpack and group communications within a wireless system in full duplex. Features 10 wireless beltpacks in 1RU, point-to-point and small group wireless communications, up to 6 communications routes per beltpack, frequency and channel hopping technology, local active antennas up to 3,200 ft from base. Plus, call alert w/vibration function, improved party-line connectivity, Ethernet map retrieval and downloads, and remote battery monitoring. Also available: CellCom50/FreeSpeak50. Call for more information and pricing.

### HEADSETS AND HANDSETS

**CC-95:** Durable, professional headset with smooth, full-range audio response and great comfort. Flexible boom arm features a specially designed, noise-cancelling mic; rotate for left- or right-side use. Custom foam-filled ear cushion provides acoustic isolation in moderate-noise-level environments. 5.5-foot (1.67 meter) cord with 4-pin female XLR connector. (CC-95-X5 5 pin Male XLR connector) **\$250.00**

**CC-260:** Double-ear, noise-attenuating headset with same features as CC-95. Separate wires for each earphone allow stereo or "split ear" use. **\$290.00**

**CC-40 and CC-60:** Single- or double-ear general-purpose intercom headsets. 200/400 Ohms, with excellent noise attenuation. Straight 5.5-foot cord (1.67 meter) with 4-pin female XLR connector.

**SC-40 \$172.25      CC-60 \$205.55**

### POWER SUPPLIES

#### PS-702 2-channel Power Supply:

The PS-702 can supply up to 2 amps at 30 volts DC to two channels. This is sufficient to power up to 40 beltpacks, 10 speaker stations, or 12 headset stations even under the most demanding conditions. Either channel is capable of supplying up to 1.2 amps. The full current capacity may be divided between the two channels. (Enhancement of PS-232) **\$626.25**

## ANCHOR AUDIO

### PORTACOM

Flexible high-performance wired intercom system. 2 Channel. Expandable up to 20 headsets, portable or rack mounted. Uses standard mic cable/3pin XLR connectors.
