	Student to Individual LW4 Upgrade	#3875	310.00
	Replacement Lightwright 4 CD	#3880	14.50

LPS - LIGHTING PAPERWORK SYSTEM

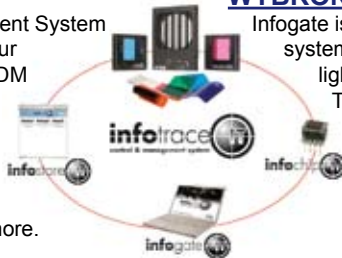

Software focused on streamlining paperwork and information used when designing and implementing entertainment lighting.

#8532LPSPRO11	Pro (individual)	\$250.00
#8532LPSNET11	Net (4 user license)	699.00
#8532LPSSTU11	Student	99.00
#8532LPSSTPRO	Upgrade Student to Pro	151.00
#8532LPSMobil	Pocket PC Version	99.00

WYBRON INFOTRACE

Wybron's award-winning Infotrace Control and Management System gives you the tools to manage your rig without leaving your computer. Using the two-way communication protocol RDM (Remote Device Management), Infotrace enables you to inspect and address everything in your lighting system. Automate the setup of DMX addresses, proactively check the condition of equipment before, during and after a show, track lamp duty cycles and predict lamp failure, predict when maintenance is needed and much more. **Call for pricing**

WYBRON INFOGATE

Infogate is the software at the heart of the RDM-based Infotrace system. Wybron's Infogate can manage all the equipment on a lighting rig through a router connected to the Infogate box. The software must be paired together to function. Features include remote DMX addressing, error message reporting, DMX mapping, and discovery of every piece of RDM-compatible equipment hooked up to your rig. **#4200 \$1220.00**

SOUND MADE SIMPLE

An interactive learning application produced on CD-ROM that takes an 'academic' approach to teach the basic fundamentals of audio, acoustics and sound system equipment. Sound Made Simple iCD uses eye-catching animation paired with an easy-to-understand presentation that teaches the basic fundamentals of audio and acoustics using a unique, academic approach the industry has yet to see. Topics covered include Sound & Hearing, Signal Path & Gain Structure, Mixing Consoles, Equalization, Acoustics, Microphones, Signal Processors, Power Amplifiers, Loudspeakers, and Cables, Connectors & Impedance. Several of the units include interactive objects that allow the user to have hands on experience without requiring a full size audio system. The interactive mixing console accurately simulates the look, feel, and function of a real console and incorporates full functionality of the channel and master faders, pan controls, and mute buttons while allowing the user to mix real instrument tracks in real time. There are over 350 comprehensive academic-based modules in a well designed application ideal for both individual and group training sessions. Downloadable demo available: www.soundmadesimple.com **\$149.00**

BEN NYE INSTRUCTIONAL DVD
