ROSCOLUX FILTERS

Rosco's premier range of filters is manufactured to insure the longest possible life under hot theatrical lights. Roscolux is currently the most widely used filter range in the world. The Roscolux Diffusion line is designed to alter the shadow characteristics or beam shape of light. **Colors: #00-99, #303-398 & Diffusion #100-163**

ROSCO CINEGEL

The Rosco Cinegel range includes over 75 tools for controlling light and has the broadest range of materials available for use in Television and Film lighting. This range of products includes: effect colors, diffusion and reflection materials, daylight-tungsten-fluorescent and HMI conversion filters, neutral density filters and many more. **Colors: #3001-3882**

ROSCO STORARO

Ten filters designed to the personal specifications of cinematographer Vittorio Storaro, representing key chromatic elements of the visible spectrum,

Colors: #2001-2009

ROSCO CALCOLOR

Calibrated color is a series designed specifically to the spectral sensitivity of color film. CalColor filters adjust the transmission of these color components at the individual light source in a familiar and reliable manner. **Colors: #4215-4990**

#110084019608	96" Sleeves for T8 lamps	29.00

DICHROFILM

A gel that never burns out? Dichro-Film combines the flexibility, light weight, and safe characteristics of a plastic gel with the longevity and heat resistance of a dichroic filter. Can be used in long term applications on sources as high as 20,000

watts. Perfect for permanent installations where a flexible filter is required, or where installing glass could pose a safety hazard. 25" x 25" sheets in 10 standard colors (Primary Blue, CTB Daylight, CTO Tungsten, Indigo, Magenta, Primary Green, Yellow, Cyan, Orange, Red) with custom colors available upon request.

ROSCO PERMACOLOR

A glass filter with a permanent dichroic coating that produces significantly higher transmission of pure, clean colors which never burn out or fade. Now available in 24 stock colors.

#-7508	2" x 2" Square	\$ 8.95

#97750	7.5" x 7.5" holder, w/safety grid	18.25

NEW! ROSCO QUICK COLOR SLEEVES

Put any color on virtually any fluorescent light source. This gel-only product is a flat welded tube of Rosco color filter, made in any color from any line of Rosco gel. Folded flat for easy shipping and storage, the sleeve puffs open like an envelope to slide over any size or shape of fluorescent tube, from small T3 and T5 lamps to larger T12 and biaxial shapes. Quick Color Sleeves come in 48" lengths but are easily cut. Minimum quantities may apply. For bulk applications, continuous rolls of Quick Color Sleeves are also available.

#110084304805	T8	13.95
#110084304805	T12	13.95

LIGHT LAB EDITION

This edition contains a 6.5" x 12" (16.5cm x 30.5cm) sample of each color and diffusion. Users will find all the familiar data, such as a wavelength chart and transmission data printed on the full size sheets behind each filter. In addition to the colors, each book is equipped with two Rosco safety frames, 6.25" (15.87cm) and 7.5" (19.05cm), a plastic pouch for saving cut gel, and a Rosco gel marker.

ROSCO DAYLIGHT CONVERSION FILTERS

**Materials displayed are deep-dyed for heat stability and superior color transmission. Rolls are 48" x 25' (122 cm x 7.6m).*

\$7.50/sheet, \$160.00/roll

AMBER

RoscoSun Daylight Conversion Filters are a range of amber filters that lower color temperature as needed. Although typically used on daylight 5500 degree K sources to balance with tungsten, the range offers a multitude of technical and aesthetic color correction possibilities.

# 3407	RoscoSun CTO	Converts 5500°K daylight to a nominal 2900°K
# 3411	RoscoSun 3/4 CTO	Converts 5500°K daylight to a nominal 3200°K
# 3408	RoscoSun 1/2 CTO	Converts 5500°K daylight to a nominal 3800°K
# 3409	RoscoSun 1/4 CTO	Converts 5500°K daylight to a nominal 4500°K
# 3410	RoscoSun 1/8 CTO	Converts 5500°K daylight to a nominal 4900°K
# 3420	RoscoSun Double CTO	Converts 10,000° K daylight to a nominal 2400°K

STRAW

RoscoStraw Daylight Conversion Filters are a series of yellowish amber filters that lower color temperature as needed. The series is offered as a yellower version of the traditional CTO series and is calibrated to the same color correction and transmission properties.

# 3441	Full Straw (CTS)	Converts 5500°K daylight to a nominal 2900°K
# 3442	Half Straw (1/2 CTS)	Converts 5500°K daylight to a nominal 3800°K
# 3443	Quarter Straw (1/4 CTS)	Converts 5500°K daylight to a nominal 4500°K
# 3444	Eighth Straw (1/8 CTS)	Converts 5500°K daylight to a nominal 4900°K

Tungsten Conversion Filters

Tungsten Conversion Filters are a range of blue filters that raise color temperature as needed. Although typically used on tungsten-halogen sources to balance with daylight, the range offers a multitude of technical and aesthetic color correction possibilities.

# 3202	Full Blue (CTB)	Boosts 3200°K to nominal 5,500°K daylight
# 3203	Three-Quarter Blue (3/4 CTB)	Boosts 3200°K to nominal 4,700°K daylight
# 3204	Half Blue (1/2 CTB)	Boosts 3200°K to nominal 4,100°K daylight
# 3206	Third Blue (1/3 CTB)	Boosts 3200°K to nominal 3,800°K daylight
# 3208	Quarter Blue (1/4 CTB)	Boosts 3200°K to nominal 3,500°K daylight
# 3216	Eighth Blue (1/8 CTB)	Boosts 3200°K to nominal 3,300°K daylight
# 3220	Double Blue (2X CTB)	Boosts 2800°K to nominal 10,000°K daylight

ROSCO CINEDICHRO

Cinedichro filters are extremely durable, heat resistant dichroic filters. Cinedichro has been engineered to provide true, accurate color correction, precisely matching industry standards for color balancing daylight and tungsten light sources. Cinedichro filters can be used on most motion picture lighting fixtures—even 6K pars— and have a maximum diameter of 13.5". *Contact Mainstage for more information on using Cinedichro filters with specific fixtures.*

Price according to size.

Color	No.	Color	No.
Cinedichro Full Blue CTB	#43202	Cinedichro 1/2 Blue CTB	#43204
Cinedichro 1/4 Blue CTB	#43208	Cinedichro Full CTO	#43407
Cinedichro 1/2 CTO	#43408	Cinedichro 1/4 CTO	#43409
Cinedichro White Diffusion	#43026	IR/UV Filter	#38000

ROSCO UV FILTERS

A filter which absorbs ultraviolet rays. Less than 10% transmission below 390 nanometers. Extends life of gel three times or more by greatly slowing the premature fading process that can occur to the dyes on your gel.

#101031142024	20" x 24" Sheets	\$ 6.95
#101031142450	24" x 50' Rolls	170.00
#101031144825	48" x 25' Rolls	165.00

ROSCO SUPER HEAT SHIELD

An extremely effective heat resistant plastic filter which deflects heat away from color filters by acting as a barrier. For maximum efficiency, a minimum 1" air space must be maintained between Super Heat Shield and the color filter.

#101019912024	20" x 24" Sheets	\$ 13.75
#101019912450	24" x 50' Rolls	329.50
#101019914825	48" x 25' Rolls	329.50

ROSCO THERMASHIELD

A clear film which has a proprietary multi-layer coating that reflects most of the damaging infrared heat emitted by lighting fixtures. Positioned with air spaces between the lamp and the color frame. Thermashield will protect filters from otherwise destructive heat conditions.

While Thermashield is extremely effective protecting color filters from light sources that are IR rich, the polyester base limits its use to fixtures of 1000 watts or less. It is not suited for extremely hot light sources such as xenon or HMI.

#101019951212	12" x 12" Sheet	\$ 29.50
#101019952024	20" x 24" Sheet	59.95
#101019954804	48" x 48" Rolls	239.00

LEE FILTERS

Brilliant colors consistent from batch to batch. Polycarbonate (HT) also available. Effects filters are numbered in the 100's, 300's, and 700's. The 700 Series of colors was designed by and for the world's leading lighting designers. Technical filters provide precise tools for the modification of light to suit the needs of film and video applications. The 200 and 400 series includes color correction and diffusion.

QUICK ROLLS

This award winning product offers savings over buying individual sheets, as well as the convenience of being ready to frame in just one cut. Can be custom ordered by the inch up to 46" wide. This product is available in any polyester base material color found in the LEE swatchbook. All Quick Rolls are 25' long. **Most colors not available for overnight delivery.**
