

Milwaukee (800) 236-0878 - Pensacola (800) 851-3618 - Memphis (800) 757-6884 - Tampa (727) 564-3997 - Miami/West Palm Beach (561) 319-1475

Patterns, also called templates, cookies or gobos, are used to project specific images, simulate scenery, create an atmosphere or add depth to a stage or video picture. Patterns are circular or rectangular and fit the gates of most ellipsoidals. ****Gobo rotators are listed under Effects**

ROSCO GOBOS

***10% discount on orders of 7 or more steel standard**

Rosco offers more than 800 different standard gobos in various sizes. Consult the Rosco Gobo website to see the entire range: www.rosco.com.
Steel \$11.17 Mesh \$15.65

ROSCO CUSTOM GOBOS

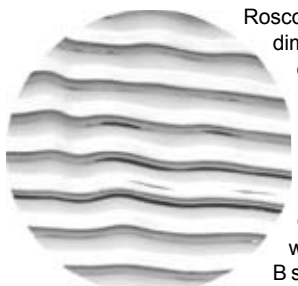

Rosco Custom Gobos can be made from virtually any artwork in just a few days. Sizes for most ellipsoidal and automated luminaries are available. Custom Stainless Steel Gobos can be manufactured quickly and inexpensively and are perfectly suited for less complex designs. Black and White Glass Gobos allow fine details and grayscale images to be reproduced in both positive and negative backgrounds. Simple one- or two-color images as well as full-color photographic designs create dramatic impact when projected. Rush charges may apply.

ROSCO IMAGE GLASS

Rosco Image Glass textures light with depth and dimension, bending light into intricate patterns of light and grayscale images. Altering the sharp focus of the fixture transforms the image into a wide range of textures. Use in 600 watt ellipsoidals or 1200 watt moving lights. Selected designs* are available in X size for use in Rosco X-Effects projector. Image Glass gobos must be used in the iris slot when used in Ellipsoidals and require either a B size iris slot glass pattern holder or the Rosco Universal Iris Slot Holder. \$ 35.00

ROSCO COLORWAVES

Rosco Image Glass coated in one of five brilliant dichroic colors. Image Glass adds a unique combination of color, texture, shading and blending. Use in 600 watt ellipsoidals or 1200 watt moving lights. Available in "Strands", "Ripples", "Waves" and "Mosaic." "Strands", "Ripples" and "Waves" designs are available in X size for use in the Rosco X-Effects Projector. When using Colorwaves in ellipsoidals, they must be used in the iris slot and require the use of either B size glass pattern holder or the Rosco Universal Iris Slot Holder. Each available in the following colors: Red, Amber, Magenta, Cyan, and Indigo.

APOLLO STEEL GOBOS *10% discount on orders of 7 or more steel standard

Apollo metal gobos are made from high quality stainless steel with a thickness of 8ml that result in durable patterns able to withstand high heat generated from both ellipsoidal and intelligent lights. Over 990 standard patterns in multiple categories are available. Custom designs can be made from original artwork.

Standard: **\$13.25** Custom Original: **\$89.00** Custom Copy: **\$32.50**

APOLLO GLASS GOBOS

Colored glass gobos project clear, crisp detailed photos, images or logos that require specific color matches or any images with gradients of color. They are designed for maximum temperature tolerance and longer life in higher wattage ellipsoidal and intelligent lights. Note: Glass gobos can be made for any light in the industry with quick turnaround on custom patterns. Colored glass gobos are made from 1.1mm thick borosilicate glass. No returns or refunds are available for glass gobos. Glass gobos are not recommended for use in Altman 360Q, Altman 3.5 and/or Colortran 5-50.

APOLLO COLOURSCENIC GLASS GOBOS

Ideal for images requiring specific color matches or any images with gradients of color. Multi-color glass gobos provide a clear crisp image. Over 100 standard ColourScenic glass gobos are available. Custom designs up to 20,000 dpi can be made from original artwork or photographs that require specific color matches or contain gradients of color.

Standard: **\$360.00** Custom 3Color Original: **\$645.00** Custom 3Color Duplicate: **\$485.00**

APOLLO COLOR DICHROICS GLASS GOBOS

Colored glass is also known as "dichroic." Over 45 standard one-color and 120 standard two-color glass gobos are available. Custom designs up to 20,000 dpi can be made from original artwork. One color standard and custom gobos are designed to work best in metal pattern holders. One color custom gobos are available, however, depending on the design, most one color custom gobos must be put on a black plate to avoid a surrounding circle of light, therefore becoming a two-color pattern, even though you don't "see" the black.

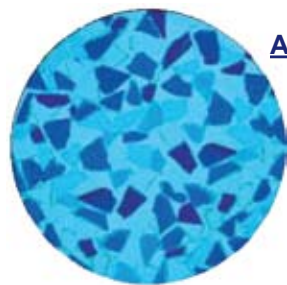

| | | | | | |
|---------------------|-----------------|-----------------|-----------------|-------------|------------------|
| One-Color: Standard | \$ 69.00 | Custom Original | \$174.00 | Custom Copy | \$ 108.00 |
| Two-Color: Standard | 189.00 | Custom Original | 360.00 | Custom Copy | 290.00 |

APOLLO SUPERRESOLUTION BLACK & WHITE GLASS GOBO

Black & white glass gobos project detailed photos, images or logos with a gray scale. They are designed for maximum temperature tolerance and longer life than metal gobos in higher wattage ellipsoidal and intelligent lights. Over 550 standard black & white glass gobos are available. Custom designs up to 20,000 dpi can be made from original artwork. Donuts are recommended, allowing for a sharper image by blocking out unwanted light. Designed to work best in metal pattern holders.

Standard: **\$69.00** Custom Original: **\$174.00** Custom Copy: **\$108.00**

APOLLO ENHANCED DICHROICS

Enhanced dichroics are multi-color texture patterns made from small chips of dichroic colored glass that add background color and breakups to any scene and project no white light. Enhanced dichroics are on a colored glass background. **#DI-CRUSH2 \$69.00**

APOLLO CRUSHED DICHROICS

Multi-color texture patterns made from small chips of dichroic colored glass that add background color and breakups to any scene. Crushed dichroics project bits of white light mixed within the colors. Crushed dichroics are on a clear glass background. **#DI-CRUSH1 \$59.00**

APOLLO TEXTURED GLASS

Deep textured glass patterns will refract and bend light into detailed patterns of light and gray scale images. Combine with color, other patterns and rotators, or adjust the focus for that extra touch. Textured glass is an inexpensive way to add depth to your patterns and enhance architectural washes. Made of tempered glass and available in 8 patterns: Striped, Checkerboard, Weave, Honeycomb, Rain, Floral, Frost Light and Frost Heavy. **#TEX- "NAME" \$34.00**
